

# Linking Biological and Cultural Diversity UNESCO-SCBD Programme

A global knowledge platform linking local, regional, national and international practices and experiences

## Contribution of the links between Biological and Cultural Diversity, Community Conservation and Customary Sustainable Use to the Implementation of the Strategic Plan on Biodiversity 2011-2020 and the Aichi Targets

The weekend of activities will include local temple and forest visits, a cultural event and reception and a series of roundtable discussions. These activities will be held on 11-12 October 2014, primarily in **room G4**, as well as in the **Rio Conventions Pavilion** and with **off-site excursions**.

### In collaboration with

A weekend of activities at COP 12,

Pyeongchang, Republic of Korea,

**11 - 12 October, 2014**

The weekend activities will engage COP 12 participants and colleagues around the world about the biological and cultural dimensions of diversity; the interaction between them and their connection to social and economic development; as well as their role in building resilience against natural and human induced change and more broadly the power of local action. In line with the mid-term review of the revised Strategic Plan for Biodiversity 2011-2020, the post-2015 development agenda and sustainable development goals.
