

ICCAS AND AICHI: THE CONTRIBUTION OF INDIGENOUS PEOPLES AND LOCAL COMMUNITIES TO MEETING THE AICHI TARGETS

ICCA CONSORTIUM AND KALPAVRIKSH

Side Event No. 3189, 7th October, 18:15 - 19:45
Hall D, Room 1 - Asia and the Pacific Meeting Room

Indigenous Peoples and Community Conserved Territories and Areas (ICCAs), spread throughout the world, have significant contributions to make in meeting all the 20 Aichi Targets. These contributions are not currently adequately understood and recognised. With appropriate legal and other kinds of backing, and full recognition of their local names, contexts, and relevance, ICCAs could play an even more significant role in implementing the Strategic Plan for Biodiversity and the CBD in general.
